SERGIO ARAGONÉS MARGINALS XL

The old saying is true — good things DO come in small packages! Just take a look at hummingbirds, or those tiny, delicious cocktail wieners, and, of course, Sergio Aragones' "marginal" cartoons. However, there's another, older, saying: "bigger is better." Which is why we're presenting Sergio's cartoons in the same big size he submits them to us — showcasing them in their full-blown glory. God save us if they ever do the same thing to hummingbirds!
